

C1 CANTILEVER, UNREINFORCED

For allowable wall/roof loads on cantilever, use DOMA Sizer™ software or contact BlueLinX.

*Cantilever length must not exceed $\frac{1}{4}$ the adjacent span (L). Nor may it exceed:

- a) 2'-0" (if end of cantilever supports wall/roof loads)
- b) 4'-0" (if no loads are placed on end of cantilever)

For other conditions contact BlueLinX.
