

A new day is dawning!

onCENTER presents a product that looks and feels like dimension lumber but performs like engineered lumber. Enjoy the ease of working with wood while your customers enjoy the benefits of high performance and the Lifetime Limited Warranty. With lengths available up to 32' and depths from 3 1/2" to 16", new **onCENTER Advanced Framing Lumber (AFL)** is here.

Straight. Solid. Strong.

Visit www.buildonCENTER.com today to learn more about this exciting, new alternative to dimension lumber or call 877-914-7770.
